

Danny Lipford

Danny Lipford is **America's Home Improvement Expert.**

As host of the Emmy-nominated, nationally-syndicated *Today's Homeowner* TV and Radio Shows and the destination website TodaysHomeowner.com, Danny delivers fresh, practical and trusted advice for maintaining and improving homes.

Danny's interest in home improvement began at just nine years old when he bought his first electric jigsaw from a mail-order catalog with his allowance. At 21, he started his remodeling business, [Lipford Construction](http://LipfordConstruction.com) in Mobile, Alabama, which soon became one of the most respected remodeling companies in the southeast and continues to

operate successfully today.

His television journey began 1988 when he was asked to host a small, live cable show in Mobile, AL. The show, *Remodeling Today*, grew throughout the region until it was nationally syndicated in 1998 and became *Today's Homeowner with Danny Lipford*. The Today's Homeowner brand continued to expand adding the nationally-syndicated Today's Homeowner radio show, a full-service video production firm, 3 Echoes Productions, TodaysHomeowner.com and the newest edition – décor and lifestyle blog, *Checking In With Chelsea*.

Backed by his 37-year remodeling career, Danny served as the home improvement expert for *CBS's The Early Show* and *The Weather Channel* for more than a decade. His extensive hands-on experience and understanding of the industry make him the go-to source for all things having to do with the home – from advice on simple repairs, to complete remodels, to helping homeowners prepare their homes for extreme weather and seasons.

Danny has made more than 160 national television appearances, most recently on FOX & Friends and Fox Business Channel, has been a longtime contributor to *Better Homes & Gardens*, and is an expert source for hundreds of other popular magazines and websites each year.

Danny has been married for thirty-three years to Sharon and has three beautiful daughters, Chelsea, Melanie and Emily, affectionately referred to as the "3 Echoes."
