

Wish your home came with instructions?

Today's Homeowner delivers what you need to know.

HEALTHY HOME

People spend 90% of their time indoors during winter. Tackle these chores to ensure healthy air and water quality throughout the season.

SAFETY

Home accidents increase during cold and icy winters. Having these supplies and tools on hand will help prevent the risk of slips & falls.

AVOID WATER DAMAGE

Water damage from leaks and frozen pipes is the second leading cause of loss for homeowners. Complete these tasks to protect your home.

COMFORT

Use ceiling fans to circulate warm air during chilly months to keep your family and guests comfortable without bumping up the thermostat.

BE PREPARED

Power outages from icy conditions are a common occurrence. Tune up your generator to keep your family comfortable when Old Man Winter strikes.

Clean range hood filter.

Set ceiling fans to rotate clockwise and circulate warm air.

Change water and icemaker filters on the refrigerator.

Clean all baseboard heaters.

Insulate exposed water lines and hose bibs.

Change heating system filters.

Thoroughly clean, oil and prepare snowblower for winter.

Gather tools and supplies for removing snow and ice from walkways and driveways.

Inspect washing machine hoses for leaks or damage. Replace if necessary.

Prepare portable or standby generator.
